Species	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
---------	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----

KEY: Main mitigation window

<b>Badgers</b>	No disturbance to existing setts/building of artificial setts only Building of new setts											Closing off/destruction of existing setts	See Jan		
<b>Bats</b>	Works to maternity roosts	Works to maternity roosts	Works to maternity and hibernation roosts	Works to maternity and hibernation roosts	Works to hibernation roosts only	Works to hibernation roosts only	Works to hibernation roosts only	Works to maternity and hibernation roosts	Works to maternity and hibernation roosts	Works to maternity and hibernation roosts	Works to maternity and summer roosts	Works to maternity and summer roosts			
<b>Birds</b>	Clearance of nesting habitat											Avoid clearance/construction works as birds nesting	Clearance of nesting habitat		
<b>Dormice</b>	Above ground vegetation clearance											Capture and Release	Capture only	Above ground vegetation clearance	
<b>Great crested newts</b>	Pond management only (newts in hibernation)											Newt trapping in ponds and on land	Newt trapping on land only	Pond management only (newts in hibernation)	
<b>Otters</b>	No timing constraints but likely to be restricted where otters breeding (Otters can breed at any time of year)														
<b>Reptiles</b>	Above ground scrub clearance only (reptiles in hibernation)											Capture & translocation programmes	Capture and Translocation (Sub-optimum)	Capture & translocation programmes	Above ground scrub clearance only (reptiles in hibernation)
<b>Water voles</b>	No works in habitat											Trapping/Exclusion	No works (breeding period)	Trapping/Exclusion	No works in habitat
<b>White-clawed crayfish</b>	No capture programmes											See Jul-Oct	No capture programmes	Capture and exclusion from construction areas	No capture programmes
